Re: Master Project Plans for Naval Weapons Station Yorktown and Cheatham Annex Site

Dear Ms. Cole:

Thank you for giving EPA the opportunity to review the referenced document. EPA provided comments on the *Draft Master Project Plans for Naval Weapons Station Yorktown, Yorktown, Virginia, and Cheatham Annex Site, Williamsburg, Virginia (July 2004)* on September 14, 2004. A revision to the document was then submitted in January 2005.

Based upon our review of the January 2005 revision to the Plan, we have determined that EPA's comments have been satisfactorily addressed, including revisions to the Master Quality Assurance Project Plan (QAPP) and the accompanying tables.

This letter constitutes approval of the referenced Master Project Plan. It should be noted that some required elements of a QAPP may be included in site-specific work plans, and in such cases, separate review by EPA's Environmental Services Center (Fort Meade, Maryland) may be warranted.

If you have any question or comments, or would like to discuss the Plan further, please contact me at 215-814-2333.

Sincerely,

*Greyson Franklin*
